SETTING

■ Method1) Using the headset

🔊 You will hear a **double beep sound**.

🔊 "Configuration menu"

■ Method2) Using the Sena Device Manager

Connect the headset to your computer via a USB cable. Launch the Sena Device Manager and click **DEVICE SETTING** to configure the headset settings.

For details about downloading the Sena Device Manager, refer to the leaflet included in the package.

■ Method3) Using the Sena Smartphone App

1. On your smartphone, download the Sena Smartphone App for Android or iPhone from Google Play or App Store.
   Refer to **www.sena.com/headset-app/** for more details.

2. Pair your smartphone with the headset.

3. Run the Sena Smartphone App. Swipe the screen to the right and tap **Settings** to configure the headset settings.

TROUBLESHOOTING

■ Factory Reset

If you want to restore the Tufftalk to factory default settings, press and hold the **Phone Button** for 10 seconds. Tap the **Jog Dial**. The headset automatically restores the default settings and turns off.

■ Fault Reset

If the Tufftalk is not working properly for any reason, push the pin-hole reset button located below the left ear cup.
